(in Canadian dollars, unless otherwise stated)

1. Reporting entity and going concern

Nio Strategic Metals Inc. (the "Company") is domiciled in Canada. The address of the Company's registered office is 1, Place Ville-Marie, Suite 1670, Montreal, Quebec. The Company, incorporated under the Quebec *Business Corporation Act* on August 29, 1995, holds an exploration niobium property in Oka, Quebec and an exploration iron property in the James Bay area, Quebec. The Company is a publicly traded company listed on the TSX Venture Exchange (the "TSX-V") under the symbol "NIO".

The Company is in a development stage and has mineral exploration and development properties in the province of Quebec. The Company does not capitalize the exploration and evaluation expenses. The Oka mining property consists of mining rights comprised of 98 claims covering 5,429 acres and the Great Whale property consists of surface and mining rights comprised of 63 claims covering 7,687 acres on the Hudson Bay territory. Substantially, all the Company's efforts are currently devoted to financing, developing and obtaining permits for its niobium property in Oka.

Financial statements have been prepared on a going concern basis which supposed that the Company will pursue its activities in a foreseeable future and will be able to realize its assets or discharge its obligations in the ordinary course of operations. The Company is in the process of exploring and evaluating its mineral properties and projects and has not yet determined whether its properties and projects contain ore reserves that are economically recoverable. The Company does not have any revenues coming from its operations that would enable the Company to discharge its obligations in the ordinary course of its operations. The financial statements do not reflect the adjustments to the carrying values of assets and liabilities that would be necessary if the Company were unable to realize its assets or discharge its obligations in the ordinary course of operations.

With respect to the niobium property in Oka, the Company has determined in 1999 that the property contains ore resources which provide a conceptual indication of the potential of the property. The Company's application is under study with the Quebec Ministry of Sustainable Development, Environment and Parks ("MDDEP") and the community of Oka to obtain all permits, certificates and other authorizations to allow the Company to operate the niobium property. Management is currently working to obtain all the required permits and authorization to develop the Oka property.

The Company's ability to meet its commitments as they come due, including the final acquisition of properties and the development of mining projects, depends on its ability to obtain the necessary financing. These factors raise the existence of a material uncertainty that could cast significant doubt on the Company's ability to continue as a going concern. Although the Company has taken steps to verify title to mineral properties in which it has an interest in accordance with industry standards for the current stage of exploration of such properties, these procedures do not guarantee the Company's title. Property title may be subject to unregistered prior agreements and non-compliance with regulatory requirements.

2. Basis of preparation

Statement of compliance

These unaudited condensed interim financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS"), as issued by the International Accounting Standards Board ("IASB") under international accounting standard IAS 34, Interim Financial Reporting, using the same basis of presentation, accounting policies and methods of computation that were applied for the annual financial statements for the year ended December 31, 2023.

The financial statements were authorized for issue by the Board of Directors on August 20, 2024.

(in Canadian dollars, unless otherwise stated)

Basis of measurement

The financial statements have been prepared on the historical cost basis.

Functional and presentation currency

These financial statements are presented in Canadian dollars, unless otherwise stated, which the Company's functional currency is.

Use of estimates and judgements

The preparation of the financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimates are revised and in any future years affected.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year include, but are not limited to:

Going concern

The assessment of the Company's ability to execute its strategy by funding future working capital requirements involves judgment. Estimates and assumptions are continually assessed and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Black & Scholes valuation

The calculation of the fair value of units, stock options and warrants granted require management to make estimates and assumptions about the fair value of the underlying common shares of the Company, expected volatility, expected life and expected forfeiture rates, which could affect the Company's results if the current estimates change. Expected volatility was based on the Company's historical volatility.

3. Significant accounting policies

The Company's significant accounting policies and estimates under IFRS are disclosed in the audited annual financial statements for the year ended December 31, 2023 and were applied consistently to all years.

4. Receivables

	June 30, 2024	December 31, 2023
Sales tax receivable	\$ 11,909	\$ 5,858
Subscriptions receivable	12,000	57,000
Other receivables	3,500	14,222
	\$ 27,409	\$ 77,080

5. Prepaid

On June 6, 2024, the Company completed its acquisition of 1478472 B.C. Ltd. In consideration for the acquisition, the Company paid to the shareholders the sum of \$75,000 and issued an aggregate of 3,998,633 common shares in the capital of the Company. 1478472 B.C. Ltd was holding 85 mining claims comprising the Fafnir Project in Quebec.

(in Canadian dollars, unless otherwise stated)

According to its accounting standards, and since the project remains an exploration project, the Company expensed all the costs except for the claims considered as prepaid. The Company is in the process of amalgamating 1478472 B.C. Ltd following the transaction.

Prepaid expenses consist mostly of payment of rights on mining properties.

Oka property:

The Oka mining property consists of surface and mining rights comprised of 98 claims (98 in December 31, 2023) covering 5,429 acres (5,429 in December 31, 2023).

Great Whale property:

The Company owns mining rights for the iron property of Great Whale comprising 63 claims (63 in December 31, 2023) covering 7,687 acres (7,687 in December 31, 2023) on the Hudson Bay territory.

Fafnir property:

The Company owns mining rights for the niobium property of Fafnir comprising 85 claims (nil in December 31, 2023) covering 12,241 acres (nil in December 31, 2023) located around 60 kilometers away from Mont-Laurier.

^(a)In 2021, the Company entered into an agreement with Nio-Metals for an unsecured bridge loan facility of \$ 500,000 (the "Bridge Loan"). The Bridge Loan has a 24-month term to maturity, bears interest of 6% per annum payable quarterly, starting in September 2021, and is not convertible. The Bridge Loan may be repaid at any time prior to maturity without penalty. In March 2022, the Company and the lender agreed to extend the maturity date from March 2023 to March 2024.

On April 24, 2024, Nio-Metals and the Company amended the value of the Bridge Loan to \$ 450,000 following a \$ 50,000 cash reimbursement from the Company; and extended the maturity date to April 30, 2025, subject to no other condition.

8. Share capital

The number of shares issued and outstanding as at June 30, 2024 was 83,859,305 (December 31, 2023 - 79,860,672). The Company is authorized to issue an unlimited number of common shares, without par value.

On June 6, 2024, the Company issued 3,998,633 common shares to complete an acquisition.

9. Share-based payments

Under the stock option plan, the Company may grant options to directors, officers and consultants to purchase common shares provided that the aggregate number of shares subject to such option may not exceed 10% of the issued and outstanding common shares at the time of any option grant on a rolling basis. The exercise price of each option is determined by the Board of Directors and is required not to be lower than the discounted market price based on last closing market price of the common shares before the date of the grant of the option. The options vest immediately upon issuance and their life may not exceed 5 years. All options are recorded at fair value when granted.

The plan must receive shareholder and TSX-V approval annually at the Company's annual general meeting of shareholders. The number of exercisable stock options outstanding fluctuated as follows as at:

	As at June 30, 2024		As at June 30, 2023	
	Number of stock options	Weighted average Exercisable price	Number of stock options	Weighted average Exercisable price
Balance at beginning	4,450,000	\$ 0.15	3,750,000	\$ 0.15
Granted			500,000	0.15
Balance at the end	4,450,000	\$ 0.15	4,250,000	\$ 0.15

The calculation of the earnings per diluted weighted average share for the period excluded, as they were anti-dilutive, the impact of 4,450,000 stock options (June 30, 2023 - 4,250,000).

Share-based compensation expense for the period ended June 30, 2024, totaled \$ 9,522 (June 30, 2023 - \$ 54,886) and was credited to the contributed surplus.

The following table summarizes certain information on outstanding stock options as at:

10. Net loss per share

The calculation of basic net loss per share at June 30, 2024 was based on the loss attributable to common shareholders which corresponds to the loss for the year of \$ 518 141 (June 30, 2023 - \$ 448 042) and a weighted average number of common shares of 80,018,860 (June 30, 2023 - 75,718,338).

The calculation of diluted net loss per share at June 30, 2024 is the same as the basic net loss per share as all options had an anti-dilutive effect (June 30, 2023 same).

11. Additional information

The net changes in non-cash operating items were as follows as at:

	June 30, 2024	June 30, 2023

12. Financial instruments and financial risk management

a) Financial instruments fair value as at:

	June 30, 2024		December 31, 2023	
	Carrying value	Fair value	Carrying value	Fair value
Financial assets (amortized costs)				
Cash and cash equivalent	\$1,008,478	\$ 1,008,478	\$ 1,304,411	\$ 1,304,411
Receivables, except for sales tax receivable	15,500	15,500	71,222	71,222
	\$ 1,023,978	\$ 1,023,978	\$ 1,375,633	\$ 1,375,633
Financial liabilities (amortized costs)				
Accounts payable and accrued liabilities (except for payroll benefits payable)	67,597	67,597	84,349	84,349
Long-term debt	450,000	450,000	500,000	500,000
	\$ 517,597	\$ 517,597	\$ 584,349	\$ 584,349

In determining fair value, the Company uses observable data based on different levels which are defined as follows:

- First level includes quoted prices (unadjusted) in an active market of identical assets or liabilities;
- Second level includes data that are not based on observable inputs other than quoted prices included in the first level; and
- Third level includes data that are not based on observable market data.

The carrying value of cash and cash equivalent, receivables (except for sale tax receivable), accounts payable and accrued liabilities (except for payroll benefits payable) are considered to be a reasonable approximation of fair value because of the short-term maturity of these instruments. The carrying value of the long-term debt were accounted at amortized cost, and its fair value approximates its carrying value (Level 2).

b) Risks overview:

The Company has exposure to the following risks from its use of financial instruments. The Company's overall risk management program focuses on the unpredictability of the financial market and seeks to minimize potential adverse effects on the Company's financial performance. The Company does not use derivative financial instruments to hedge these risks.

i) Credit risk:

Credit risk results from the possibility that a loss may occur from the failure of another party to perform according to the terms of the contract. Financial instruments that potentially subject the Company to concentrations of credit risk consist of cash and cash equivalents and receivables (except for sale tax receivable). Cash and cash equivalents are maintained with high-credit, quality financial institutions. The maximum credit risk is equivalent to the book value.

Notes to the Condensed Interim Financial Statements
For the six-month periods ended June 30, 2024 and 2023
Unaudited

(in Canadian dollars, unless otherwise stated)

ii) Liquidity risk:

Management serves to maintain a sufficient amount of cash and to ensure that the Company has at its disposal sufficient sources of financing such as private placements. The Company establishes cash budgets to ensure it has the necessary funds to fulfill its obligations. Being able to obtain new funds allows the Company to pursue its activities and even though the Company was successful in the past, there is no guarantee that it will succeed in the future.

The following are the contractual maturities of the financial liabilities' amounts:

	0 - 12 months	13 - 24 months	More than 24 months
Accounts payable and accrued liabilities (except for payroll benefits payable)	\$ 67,597	\$ –	\$ –
Long-term debt	450,000	–	–
	\$ 517 597	\$ –	\$ –

iii) Interest rate risk:

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument fluctuates because of variations in market interest rates. The Bridge Loan issued by the Company bear fixed-rate interest. As a result, the Company is not exposed to significant cash flow interest rate risk for the period ended June 30, 2024.

13. Related party transactions

Key management personnel compensation

Key management personnel correspond to the directors and the corporate officers of the Company.

During the period, the Company incurred the following expenses with key management personnel:

	June 30, 2024	Jun 30, 2023
Management fees included in office and administration	\$ 71,036	\$ 41,936
Professional fees paid to an officer	–	24,000
Directors' fees	16,039	21,600
Share-based compensation	9,522	54,886

The Company has the following amounts owing to a Major shareholder as at:

	June 30, 2024	December 31, 2023
Loan	\$ 450,000	\$ 500,000
Accrued interest	–	10,027

During the period, interest expenses of \$ 14,211 (June 30, 2023 - \$ 14,877) were incurred on the loan, of which \$ 24,914 were paid (June 30, 2023 - \$ nil).

14. Capital disclosures

The Company's objectives when managing its capital are to safeguard the Company's ability to continue as a going concern to support ongoing exploration programs and development of its mining assets, to provide sufficient working capital to meet its ongoing obligations and to pursue potential investments.
